

Falkland Islands Government – Job Description

Job Title:	Offshore Health & Safety Policy Adviser		
Department:	Mineral Resources		
Reports to:	Director of Mineral Resources	Department:	Mineral Resources
Grade:	Falkland Islands Government Grade - C	Job Code:	TBC

Job Purpose

Provide support, guidance and expert advice, including regulatory advice, to the Director, and the Project Director, with regards to all aspects of offshore oil and gas Health & Safety requirements.

Main Accountabilities:

- Complete the development of offshore safety policy proposals working closely with colleagues to deliver appropriate drafting instructions, ready for the legal team. This includes conducting primary and secondary research as required, identifying best practices in other jurisdictions and analyzing policy alternatives to recommend fit-for-Falklands goal setting solutions that are aligned with developing best practice in the oil and gas industry worldwide and UK H&S regulatory regime.
- Plan and conduct research and analysis in support of the policy development, which could include complex or novel legal issues/questions.
- Facilitate consultation with appropriate stakeholders with regard to proposals for this legislation and the amendment and/or repeal of existing legislation.
- Work closely with the Directorate of Legal Services when providing advice and guidance related to the Health & Safety policy direction.
- Prepare high quality written materials for internal and external audiences including “white paper” policy proposals, “green paper” consultation papers, Executive Council papers and reports as necessary.
- Engage with politicians, FIG departments and subject matter experts (which may include external experts contracted by the Directorate) throughout the process of policy development, project design and implementation.
- Assist with the development and maintenance of guidance documents and related materials to support and strengthen the policy to legislation process.
- Manage external specialists and contractors as required.
- Provide policy advice on oil readiness safety matters to the Director of Mineral Resources, other FIG Directors, and Executive Council. As part of this process, develop appropriate consultation frameworks on proposed policy initiatives with the oil and gas industry and wider stakeholders.

The job description is not an exclusive or exhaustive definition of your duties. You shall undertake such additional or other duties as may reasonably be required by FIG commensurate with your role and grade.

Falkland Islands Government – Job Description

Job Title:	Offshore Health & Safety Policy Adviser
Additional Information	
The Department of Mineral Resources is responsible for diverse aspects of hydrocarbons policy and legislative development including offshore safety and environmental protection and permitting, licensing and development planning. The post will lead the health and safety function within the Department and will be subject to a career progression plan for the successful applicant. Candidates without UK H&S experience will not be considered. This post will require strict adherence to confidentiality. Shareholdings or other interests in oil companies who have a license interest within the Falkland Islands is strictly forbidden.
